**CARD.**

Having examined the New Patent Shaft Coupling invented by H. R. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used

It fastens without bolt or screw and is therefore easily and speedily separated It rests on Gutta Percha so as to be entirely free from that rattling sound which so often disturbs restless horses It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent heretofore considered the best in use

[DISPATCHES TO THE OREGONIAN

### EASTERN DATES TO FEBRUARY 2

### Congressional

WASHINGTON Feb 1 In Senate the Vice President laid before the Senate a communication from the Attorney General in response to a resolution of the Senate calling for a copy of any communication sent by him to any United States marshal or attorney in reference to the passage of the last act of Congress concerning that State

Morrill from the Committee on Appropriations reported with amendment the bill authorizing the Secretary of the Treasury to make a transfer for the use of the bureau of construction and repairs and steam engineering of certain balances to the credit of other bureaus of the Navy Department which are available for the current year The bill transfers about four millions in order that the bureau recently discharged may resume work

A bill was passed granting ... at the lowest rates possible ... isens who want documents shall be allowed to procure them at cost.

Conkling introduced a joint resolution restoring Mississippi to representation in Congress

On motion of Spencer the Secretary of the Navy is to be required to report to Congress the number of naval officers residing or employed in Washington or that have resided in Washington since the assembling of Congress

Ramsey offered a resolution instructing the Committee on Foreign Relations to consider the expediency of recommending the President to tender the mediation of this Government between Canada and the Red River settlements with a view to adjust the pending difficulties Adopted

The Senate resumed the consideration of the currency bill Buckingham gave his views at length on the financial policy of the Government The question was further debated by Sumner Williams and Morton after which the Senate proceeded to vote upon the pending propositions

Morton s amendment to increase the amount of additional circulation to $52 000 000 was adopted by a vote of 39 to 4

Sumner s amendment to issue $200 000 000 additional currency was voted down

Several other amendments were offered and rejected

Morton renewed his amendment authorizing the withdrawal of $15 000 000 from circulation in States having an excess and distributing the same among the States and Territories having less than their share

Davis moved to increase the amount to $25 000 000 not agreed to Morton s amendment was adopted by a vote of 34 to 27

Sherman moved to amend to provide for the apportionment of the amount authorized by the bill upon the basis of the census of 1870 adopted

Kellogg Chandler Vickers Casserly Price, Wilson and Thurman severally offered amendments all of which were rejected

The committee rose and reported the bill to the Senate The question being upon agreeing to the amendments Sherman desired separate votes on Morton s amendments last adopted

Upon the suggestion of Cameron the final disposition of the bill was deferred until to morrow in order that the bill as amended might be printed. The Senate adjourned

In the House Paine chairman of the Committee on Elections made a report in favor of having the oath of office administered to Booker, member elect for the Fourth Congressional District of Virginia. He admitted there were charges of disloyalty against Booker, but claimed that his case stood on the same ground as that of McKenzie who was sworn in yesterday

Poland declared that Booker could not take the test oath without committing perjury and assured the House that Booker had given personal and official aid to the rebellion, and could no more take the test oath than Jeff Davis could The discussion continued some time and the report of the committee was finally adopted by a vote of 89 to 71 Booker took the oath of office

Farnsworth from the Postal Committee reported a bill to prevent improper matter such as gift enterprise circulars from being sent through the mails and asked that it be put on its passage Wood objected

Schenck reported an amendatory tariff bill and moved its reference to the Committee of the Whole and that it be made the special order for Thursday, the 15th inst and until disposed of, Schenck explained that the Committee had been unable to report a bill earlier and do justice to the various interests of the country, whose representative Committees had appeared before the Committee day after day The items of the bill are confined to those in which changes are proposed in the rate of duty or mode of imposing duty He said this bill extended at least a little more advantage to agricultural interests of the country than any previous tariff He did not desire however, to discuss the merits of the bill at present.

Allison, a member of the Committee on Ways and Means suggested that the consideration of the bill be postponed for at least two weeks The bill affected every material interest of the country so far as they could be affected by a tariff for revenue or protection It changes the value of property in the country to the extent of not less than $50,000 000 and therefore it was important that representatives of the people should have time and opportunity to examine the bill before discussion commenced In his judgment the bill was constructed in the interest of protection rather than of revenue It was drawn in the interest of that class of people who would be able to make large profits on manufactures and not in the interest of consumers He proceeded to instance some of the principal changes made by the bill, especially in iron and sugar

Schenck said that the members of the committee had endeavored to keep in mind three things revenue protection and consumption

Brooks also spoke in criticism of the bill and particularly condemned that portion relative to iron steel carpeting and many other articles on which the duties had been increased He proceeded to enumerate items of advances on iron and steel and said that reductions in the bill had been ingeniously made upon the more revenue articles such as tea coffee brandy spices and liquors thus reducing the revenue in order to have an excuse for reducing the duty on iron, steel carpeting and even on old type; but what was not done in the bill was far more censurable than what was done was objectionable Duties remained on coal salt lead lumber and hides and he went on to show that Schenck did not carry out his ideas on specific duties and gave details showing that the measuring weighing and specific duties were neglected altogether in the bill

Schenck briefly defended the provisions of the bill relating to iron and hides

Kelly another member of the committee expressed dissent from Brooks s statement as to the increase of rates on pig iron It has been reduced from nine to seven dollars per ton in his judgment an unwise reduction

Marshall another member of the committee ... opposed the principles on which the existing tariff law and this bill were reported are based He did not consider the bill as meeting the hopes and expectations of the country ... as giving any relief to the ... ing ... the ... agricultural interests had been entirely overlooked After further discussion the bill was referred ... and made the special order for the 15th inst

The House then went into Committee of the Whole on the ... appropriation bill

Harris defended the Administration from the recent ... and claimed that the ... it was ... the progress ... here would ... between the people and ...

Wood ... remarked ...

Styles ... remarked that the ... the question ... made the point of order that the remarks were entirely irrelevant to the subject before the Committee The Chairman sustained the point of order when Styles resumed the current of his remarks and was reminded that he must either obey the ruling or take his seat Styles asked leave to print his remarks but Washburn and Wood objected Styles said that if the charges against the President are true he is unfit to be the ruler of the people There were loud cries of order The Committee rose and the House adjourned.

### Public Debt Statement Washington News

WASHINGTON Feb 1 The public debt statement makes the total debt principal and interest $ ... 11 46 Amount in treasury ... Decrease during the month $ ... 931 664 ...

There were imposing ceremonies including remarks by Chief Justice Chase on the reception of Associate Justice ... from the supreme bench

Representative Brooks has prepared a statement embodying the views of the Committee of Ways and Means in relation to the tariff In said of collecting tariff on about four thousand articles as proposed by the bill reported to day it is claimed that $150 000 000 can be ... or raised on twenty five mentioned articles He said the present revenue from tariff was $181 000 000

SKETCH OF THE CAREER OF PRINCE PIERRE BONAPARTE.

[From the New York Tribune, Jan. 12.]

Prince Pierre Napoleon Bonaparte, whose name figures so prominently in connection with the quarrel arising out of an article in the *Marseillaise*, has had an adventurous career, and, unlike his elder brother Louis, has chiefly followed military pursuits He is the third son of Lucien, brother of Napoleon I., and was born at Rome in 1815 In 1832 he came to this country to join his uncle Joseph, formerly King of Spain, He next proceeded to Columbia and join d the army of Santander, by whom he was placed in command of a squadron. ### The Estimates Again

And now by the light of Mr Dawes speech, according to the synopsis telegraphed to the Eastern Associated Press let us examine the question whether the administration has made extravagant estimates and if so by whose fault En passant, we may remark that the synopsis from which we make this examination contains many statements which were not telegraphed to us We have already shown how the present estimates are bearing the burdens of the last year of Johnson's administration, a large balance of accrued expenses having been shifted upon the present administration by purposely made underestimates by the preceding administration The economic showing made by Johnson's secretaries was effected, as has been shown by stopping all the public works and presenting false estimates. The case is like that of a man who should estimate his expenses at one hundred dollars a month, then show that he had paid but one hundred dollars a month, and upon that showing should claim credit for remarkable economy, while in truth his actual expenses were one hundred and fifty dollars—the additional fifty dollars being a debt which he had not mentioned in his showing, but which must be taken up in the next month.

Mr. Dawes says the estimates for the current year are $28,000,000 in excess of the appropriations for the last year under Johnson Johnson's estimates footed up $303,000,000 The appropriations were cut down from that figure $20,000,000—the aggregate appropriations being, therefore, about $283,000,000. The aggregate of the present estimates is $311,000,000. If cut down the same as were Johnson's estimates, the appropriation would be $291,000,000, or an excess of $8,000,000 over Johnson's. The plain fact is that the estimates which are to carry the public works and the balance of expenses left over by Johnson, are only $8,000,000 in excess of Johnson's under-estimates. Now let us see by Mr. Dawes own statements why the estimates are so large. He says that the estimates for public works alone are $24,000,000 In the last year of Johnson's administration the public works were mostly abandoned and the total appropriations were therefore only, in round numbers, $5,000,000. The present estimates carry not only the works abandoned by Johnson, but many new ones—custom houses, post office and court houses, mints, navy yards, etc. Here then we have an item of new expense provided by act of Congress, in excess of those of Johnson's last year, of $19,000,000. Mr Dawes says that in the three hundred and eleven millions estimate there is an error in footing up in the Postoffice Department of over $7,000,000, which is to be deducted from the aggregate. Mr Dawes said there is need for a postoffice building at New York; this is estimated to cost $4,000,000, and the building has been ordered by Congress. The estimates for the purchase of League Island and building a navy yard, are $11,000,000. Mr. Dawes did not pretend to dispute the policy, but thought we could wait for that. But these things are only incidental to the argument It is shown by Mr. Dawes that the estimates are entitled to a reduction of a total of $26,000,000 in order to fairly compare them with Johnson's last estimates. Leaving out the public works and reducing the error in the postoffice estimate, we have an aggregate of $285,000,000, against Johnson's estimate of $303,000,000. Including all the public works which Johnson left out, and we have an excess of estimates over Johnson's of only $1,000,000. Mr Dawes claimed that the estimates were higher than were necessary. The fact has been shown Johnson's were far below the actual expenses Thus the present estimates of $304,000,000 are to pay all the current expenses, new public works, and Johnson's unpaid balances. It requires only the simplest arithmetical operation to show that the present estimates for the same class of expenses are $25,000,000 lower than Johnson's even at his under-estimated figures. And all by the showing of Dawes' speech. Let there be another howl by the Democracy about the extravagance of the present administration!

Mr. Dawes' speech, we find, was not directed so much against the Departments and Bureaus of the [illegible] as against the legislation of Congress. The latter directing certain things to be done, made it necessary that estimates be submitted, and the estimates seem to have been made with an honest view of covering the actual expenses. But there is no such trick practiced as Andrew Johnson's administration was guilty of; under-estimating the expenses to create false impressions of economy which did not in fact exist. In Mr Dawes' views of the necessity of the strictest possible economy in all the Departments of the Government we fully agree, and so, we think, will the whole country. Its effect cannot be otherwise than most beneficial If Congress desire the approval of the people, it will do well to heed Mr. Dawes's advice and cut off all possible occasions of expense

### You Do us Proud, Really

We have received a proposition from a daily paper in San Francisco, in substance that if we desire an exchange, we are to publish a prospectus of something over half a column's length, flashily displayed, and give the said newspaper an editorial puff—specimen furnished. We feel flattered, really. We are exchanging "even up" with far better daily newspapers in San Francisco, and with leading daily newspapers in Chicago, Cincinnati, New York, Boston, and other good cities, any one of which is worth to us a bushel basket full of the San Francisco daily in question. We wouldn't give the cost of composition of the prospectus for the whole year's issue of the *modest* little San Francisco daily Not to be outdone in modesty, however, we will make the San Francisco daily a counter proposition The price of our paper is $10 per year, coin If the San Francisco daily will send us $10 (coin mind you) we will exchange even up for a year, and will spend half the money to hire an able-bodied man to drink toasts to San Francisco journalistic modesty

### Editorial Notes

Considering that the Democratic papers have at numerous times manifested great concern about the "dangerous organization called the Grand Army of the Republic we are justified in expressing our astonishment that none of them have as yet raised a warning cry against the Democratic soldiers organization entered into the other day called the "Grand Army of the Constitution Where are the sentinels on the outposts of the Democratic camp?

To illustrate the propensity of the Salem *Democratic Press* to dig among the dead bones of the past, we have only to mention that, now after the question of ratification of the 15th amendment has been long since disposed of by Ohio that paper is gravely discussing the constitutionality of B D Campbell's bill to submit the question of ratification to the people This dead issue however, is nearer to the living present than any we remember to have seen discussed by the venerable relic of the earlier and better days The *Press* is evidently coming along.

The Salem *Press* objects to the Red-hot members of the party hitching on any more jags as the Democracy has already a big enough load to pull If the purpose of the Red-hotters be to fire the heart and plunge the people into revolutionary resistance to the tyranny of the Government then the redder and hotter the appeals the better but otherwise red hot appeals are not exactly the things wanted The *Press* is for taking things coolly and for the exercise of some discretion Wonder, now if this was intended as a back handed lick at a Democratic newspaper in this part of the State?

Fernando Wood is evidently on the alert to protect the interests of his brother Ben in the lottery business When Mr Farnsworth asked that his bill to prevent the circulation in the mails of improper matter, such as the prospectuses of lotteries and gift enterprises, be put upon its passage, Mr Wood promptly objected and the bill had to go over and await its regular order Meantime the swindling schemes of Ben Wood and Congressman Morrissey will have an extension of time in which to use the U S mails for the purpose of defrauding simple people. Leave the Democracy alone for protecting, generally, the interests of villainy

### Chas Dickens Corresponded

The San Francisco *Chronicle* in view of the probable early decline of the "interviewing" feature has concluded to go at once into the "correspondence" business It has "corresponded" Chas Dickens, and the following is a part of what was given as the great novelist's reply

#### THE FELLOW JOURNALIST

You ask me many questions, my dear Toby Had you asked them as a private individual, I should not have replied, had you propounded them in the capacity of a simple curiosity monger I should have returned your letter to you, had you requested information on the ground of simple knowledge, I should have answered that Chas Dickens is not a walking dictionary nor a perambulating encyclopedia, but you have put yourself in the position of a Fellow Journalist, asking favors of an ex Fellow Journalist, and can one Fellow Journalist deny the request of any other fellow——excuse me one moment, my dear Toby

#### AN ERROR IN JUDGMENT

"Polly my love, give me another—"

"O, lawks! Mr. Dickens, how can you! Well if you will, you—"

"You quite misapprehend me, its another glass of hot punch I want, my dear"

"Nobody said you didn't sir! I'm sure I didn't ax you for anything," and so saying, Polly bounced out of the room.

It is strange, my dear fellow journalist, to note how often these women folk mistake the intentions of us literary men

Your first question "Who is entitled to be ranked as the greatest

#### AMERICAN JOURNALIST?"

It is not easy to answer this question directly. The honor lies between Jack Stratman and Fred. MacCrellish. The question of superiority between the two cannot be decided until each has written upon three subjects. Gold bars as against Eastern Exchange, The Ecumenical Council, and Auctioneers' Advertisements as a Means of Ultimate Salvation. As Mac has bought into the *Tribune*, it is hardly probable that any opportunity will be afforded the public to judge between the two—they will combine their powers instead of attempting to rival each other

Question No. 2—I answer, no! At the time I illustrated the American statesman in the character of Mr Jefferson Brick, I had never heard of Senator Casserly. Consequently Mr. Brick is not Mr. Casserly Whether or no Mr Casserly is Mr. Brick is a question which Californians must decide.

#### THE EATANSVILLE GAZETTE

Question No. 3.—Yes, I know a party who answers to the description you have given of one of the prominent newspaper proprietors of your city I knew him some years ago and introduced him to the reading public in my "Pickwick Papers" at the time He was always having a difficulty with some one I remember that on one occasion he assaulted a fellow editor with a poker, which came near resulting in death—to himself The last I heard of him he was in Paradise (Mo), or St Louis, or somewhere in America, where he was shot at by some one in the street When I knew him, instead of owning "two papers, both daily," he was simply editor of a provincial sheet called the *Eatansville Gazette* His name was then Potts I see by your letter that he still spells it with a P

#### MRS BARDELL AND A DISSENTING CHAPEL.

Of Mrs Bardell there is nothing definite known. She disappeared mysteriously from London one day, and has not returned I was informed that she assumed male attire and went to San Francisco, where she was elected President of the Young Men's Christian Association. The information, however, is not reliable From the same source I learned that the Rev Mr Stiggers, disgusted with the contemptible conduct of the Wellers, accompanied Mrs Bardell and is now preaching in a dissenting chapel on Geary street

#### A BISHOP—MRS GAMP GONE TO THE DOGS

Mr Toots, like many of the Dickens progeny, emigrated to America He overcame his constitutional infirmity of "hurry" and has become rather slow He also learned to express himself without upsetting his intellectual apple cart and took orders I understand that he is Bishop of one of the States on the Pacific coast I do not know if he inclines toward Low Church or Puseyism and it is very doubtful if he knows himself

Mrs Gamp has left London and associated herself with the editorial staff of the *Alta California* newspaper, a fact which I had supposed you were conversant with In truth the whole paper (with the exception of the China correspondence) is written up by Mrs Gamp assisted by her friend Mrs Harris It is a popular fallacy that the "five able-bodied notists" ever produce anything, they do not write they simply stand in the doorway and smile

#### BUNSBY INSPECTS SHIP'S HULLS—AN OPINION

The celebrated Captain Bunsby is now in your city giving opinions on damaged ships under the assumed name of Captain Bob Waterman He is now very quiet and retiring in his habits, and a devoted admirer of the Rev Stiggers, in whose light he is a bright and shining pilaster In his last letter to me he expressed his admiration for this holy man "Charley my boy" wrote he, "when it comes time for me to leave this here temporal port and I am obleeged to ship my cables, all I ax is that Collector Stiggers may give me my clearing papers and rate my chronometer for me Do I say that Stiggers' clearance is worth a dam? No! Do I say that I will get into port or that St Peter will pilot in a weak vessel out of Stiggers Unitarian shipyard? No! But if Stiggers is all right and don't slip my bawser to sudden won't my thousand dollar pew fetch me in all right on the starboard tack? Do I say it will? No! Do I say it will not? No! What I says I sticks to if I don't damme In the words of the lamented Captain Cuttle there's an opinion as is an opinion!

Your assumptions that Uriah Heep is one of your Board of Supervisors I have no means of determining It's not improbable In the other matter you are without doubt right Mr Jingle is one of the most prominent aspirants to the gubernatorial chair of your State

My grog is out and Polly is vexed at something, I have done and refuses to fill my empty steaming glass to spite of the great inducement I hold out in the way of promise of a chaste salute upon her cherry colored lips

Oh wh[illegible] an w[illegible]
Aught that sp[illegible] witty sir
Especially it this steaming g[illegible]
The bane of the literary talent
Of this here London city sir

As Mr Silas Wegg would sing I conclude without fear of contradiction from any literary celebrity of the present known world that to write without the assistance of a glass of grog is an insult to the combined talent of the age The subject is an unpleasant one and I wave it out into unmeasurable space after the Podsnappian manner

And with this remark
You behold the last
Expression of opinion
On the part of

### EASTERN COMMERCIAL AFFAIRS

[From the Bulletin's Correspondent.]
New York January 12 1870

Business affairs are beginning to mend slowly and there is a decidedly more cheerful feeling in commercial circles than along back, owing to the rapidly increasing resources of the banks and the consequent easier turn of the discount market rates having fallen to 5@6 per cent The banks indeed are richer in resources than they have been for a twelvemonth holding an aggregate of twenty eight millions in excess of the legal requirement This has resulted from the shifting of money from the dividend and interest to deposits and the return wave of currency from the interior But while there is less despondency among business men the time is not regarded as auspicious for launching out into new enterprises Everybody seems disposed to maintain a conservative policy at least while the overshadowing problem of national finance remains an unsolved problem Though the currency and taxation are universally recognized as difficult matters to deal with some healthy progress in the way of legislation seems to be looked for The people as well as their representatives, have gradually arrived at a better understanding of those questions and the preliminary debates in Congress would seem to indicate that no crude or injudicious measures are likely to be hastily adopted Though it is much easier to criticise than to propose anything satisfactory in this connection it is far better to do nothing than to do that which shall still further embarrass and complicate the business interests of the country The prevailing sentiment however, is that from the multitude of the ries advanced the elements of a sound and satisfactory system of national finance may be gathered

The Gold Exchange Bank, which has been simply an engine for the promotion of speculation in gold has again got into hot water An effort is making by some of the members of the Gold Room to throw that concern overboard and effect the gold clearings through some other medium Stocks continue buoyant, and most descriptions are higher

#### THE COURSE OF GOLD—PLANS OF RESUMPTION

The attempt to engineer a speculative rise in gold has met with very poor success, since after touching 123½ the back track has been taken Various causes are assigned for the non success of the movement, but the real cause is probably to be found in a supply considerably exceeding the demand

Senator Sumner's measure for a speedy return to specie payments is said to be a damper to speculation, and consequently a potent cause of weakness The Massachusetts Senator evidently proceeds upon the hypothesis that the legal tender or demand notes of the Government, constitute the great obstacle in the way of a sound, convertible currency, and that these must be got rid of Thus far he is undoubtedly correct, but when he goes beyond this fundamental proposition, he betrays his lack of training as a practical financier, and his incapacity as such, to adapt means to an end He belongs to that transcendental school who believe that all things are possible which may be desirable, and that Congress has only to enact laws commanding certain things to be done, and immediately the object is accomplished In fact, Mr Sumner's plan for resumption is regarded with less favor here than the bill which has just been introduced by Senator Sherman which provides for a national currency of coin notes, and for equalizing the distribution. Neither of these plans, however, is so well thought of as that put forth by Amasa Walker of Massachusetts, a political economist of considerable repute. Mr. Walker's plan is for Congress to issue compound interest legal tender notes bearing six per cent interest, to an extent equal to the present volume of greenbacks, to be convertible into ten forty bonds at the end of two years, these notes, and no other, to be used for all Treasury disbursements, except those payable in coin, the greenbacks to be destroyed at the rate of $10,000,000 per month, that amount of interest notes taking their place.

Mr. Walker is quite confident that these compound notes would be widely diffused, and would be hoarded and converted into bonds, unless commerce should actually demand their circulation In this way, whatever contraction might take place would be wholly voluntary on the part of the people, and exactly proportioned to the exigency The contraction, moreover, would be very gradual—ten millions of notes only being issued at a time and only those not needed by parties receiving them would be laid aside as an investment. But not a dollar could be absolutely withdrawn from use until the expiration of two years, and then only at the rate of ten millions per month, it would be only at the end of five years that the whole amount of $356,000,000 might be funded The principal objection to this latter plan, among most resumptionists, that it is too slow The argument is that most of the difficulties in the way of resumption have been discounted, as reflected by the fall in gold and the adjustment of values, but the fact remains that we have at least a hundred per cent more paper money afloat than is actually needed or can be brought to the par of gold and kept there. Besides, while gold remains simply as an article of merchandise, there can be no means adopted to prevent combinations to affect its price The only safe method to be adopted is a thorough reform of the whole currency system, no comprehensive plan for which has as yet been hit upon.

#### ISTHMUS TRAFFIC—PANAMA RAILROAD

By maintaining extreme rates of freight across the Isthmus, the Panama Railroad Company have been acting upon the principle of killing the goose that lays the golden egg By largely reducing the freight traffic of the Pacific Mail Company through extreme rail freights, the antediluvians of the Isthmus monopoly appear to have wholly overlooked the fact that they have been playing with a two edge sword I am informed, by one who knows, that the late Panama dividend of 6 per cent was not earned, but disbursed from the accrued fund, and that not only have the extortionate rates killed off the American traffic, but that very considerable French, English, and German traffic has also been diverted to other avenues And now, after the horse has been stolen, they sagely conclude that it is about time to lock the stable door In other words, after they have lost fully 50 per cent of their business, the old fogy Directors of the Panama Railroad have concluded to make a reduction of rates! This action may help them a little, but it is too late in the day to enable them to recover the ground they have lost If they had had a reasonable amount of common sense, they might have foreseen the inevitable effect of belting the continent with a Pacific Railroad and would have acted accordingly But having had a pretty "soft thing" of it for the last 15 years, they must now content themselves by "taking a back seat" as many other monopolists have been forced to do They may make the concern pay till the ship canal is built, when their occupation will be gone I have been unable thus far to get a list of the reduced rates

#### THE SUEZ ROUTE

One of the ship owners engaged in the East India trade had partly made arrangements to dispatch a ship of about 1,200 tons to Calcutta via the Suez route as an experiment, but late authentic reports that no vessel drawing more than 14 or 15 feet can go through without lightering, and that the Canal Company refuse to take any risk whatever, has changed his mind The War Department, however, has resolved to dispatch the United States steamer *Benicia* via that route to join the East India squadron It is becoming more and more apparent that the short cut to the East is not likely to seriously affect the Cape trade

#### THE COFFEE TRADE OF THE UNITED STATES

In my last I gave you a summary of the sugar trade of the country, from advance sheets kindly furnished me by the Shipping List the official authority In making a comparison with the British consumption set down at 40 lb per capita, I should have stated that in the United Kingdom, molasses enters into the sugar account whereas in this country it enters into a separate account Thus combining the two commodities the United States consumed by far more sweets per head than any other nation.

The coffee trade of the United States in 1869 has like the sugar trade made substantial progress Thus the total imports of all kinds into the country in 1869, together with the consumption have been as follows

| | Receipts | Consumption |
|---|---|---|
| 1868 lbs | 234,012,5 9 | 23[illegible],880,91 |
| 1869 lbs | 242,111,8 | 24[illegible],933,24 |
| Increase lbs | 4,149,313 | 10,[illegible],31 |

Prices during the year varied but little but [illegible] higher than the previous year stocks being more than usually light I annex the gold prices duty paid for the two descriptions most largely used in the United States

| | Rio | St Domingo |
|---|---|---|
| 186[illegible] | 18[illegible]@21 | 18 @18 |
| 186[illegible] | [illegible]@18 | 1[illegible] @1[illegible] |
| 186[illegible] | 1[illegible] @1[illegible] | 14 @15 |
| 186[illegible] | 1[illegible]@16 | 14 @14 |
| 186[illegible] | 1[illegible]@1[illegible] | 14 @14 |

The war between Brazil and Paraguay has reduced the supply of Rio, which has served to enhance the price somewhat The consumption of coffee in this country has so enormously increased that it is extremely doubtful if we ever again witness the low prices of ante war times when the average of the Rio berry was about eight cents per pound

#### FREIGHTS

I have nothing new to offer in regard to ocean freights which with the exception of increased activity in the West India sugar trade, continues flat The California lines have an exceedingly hard row to hoe and with extreme low rates commissions are reduced to the minimum which vessels linger on the berth in a manner which is anything but pleasant to contemplate As shippers are enabled to largely dictate terms rates are so irregular that it is hardly worth while to quote them

### OREGON

News from Rye valley is to the effect that there is plenty of snow, and that mining prospects are therefore hopeful

From the Salem *Press* A C Reed is canvassing for funds to build a hotel Secretary May has mailed to county clerks copies of the Legislative journals of last session

From the McMinnville *Blade* of the 1st The Episcopalians contemplate building a church there The Commercial Mills have been sold to Williams & Myers, of Portland Forty nine marriage licenses were issued in Yamhill county during 1869

From the Salem *Statesman* Business in the city continues brisk Big teams loaded with produce are coming daily from the country Fifty five deeds and sixteen mortgages were recorded during January There were issued nine marriage licenses During January the number of money orders drawn at the Post Office was one hundred and eight

There are two protracted revival meetings in progress at Oregon City One conducted by Elder Chandler, of the Baptist Church has been continued for some time and has excited much interest several conversions having taken place and a large number having asked for the prayers of the Church The other meeting is carried on by the Methodists under the lead of Rev J F De Vore

A letter from the settlement on the North Fork of John Day river says The weather here so far has been lovely clear and frosty. Everybody here is busy making rails hauling them out and preparing for putting in gardens and grain There are between twenty and thirty men and six ladies and as many children and so far I have not heard of any one being sick All the settlers have just such claims as they want, and appear to be happy in their new mountain homes

It is announced that Gov Butler of Nebraska has determined to call a special session of the Legislature It has all along been understood that in case the ratification of the 15th amendment by Nebraska were needed to complete the requisite two-thirds of all the States, the Governor would order a special session for the purpose of ratifying It is probable that this is now the purpose for which the Legislature is to be convened

Pius IX, in the midst of all the great pomp and ceremonial which surrounds him, does not allow his household expenses via his own individual table, for example, to cost more than three pauls (thirty cents) a day His physician ordered him to drink a native wine The Pope liked a very agreeable one called "Est Est Est" But when he found that he could not drink a whole flask in the day, that half was thrown away, he changed his wine, and selected a cheaper kind, which can be bought on draft, and this was to save fifteen cents!

A prisoner in the Toronto jail writes to the papers that there is "a certain amount of meat allowed to make soup, but when you come to consider that ten or twelve men who are favorites employed in the kitchen and about the jailor's stable make a practice of eating the beefsteaks at every meal, it is not extraordinary that the remainder of the prisoners have to live on the barley and water one day, and peas with a few oats another" No wonder that he inquires if this system is to continue much longer

Councilman Cree took the chair at the request of President *pro tem*.

An ordinance to establish the salary of the Street Commissioner was read for information and referred.

An ordinance providing for the improvement and survey of streets read for information, amended, read a third time and lost, yeas 4, nays 2.

MISCELLANEOUS.

The Committee on Streets and Public Property was instructed to have the park between Salmon and Main improved.

The Auditor was instructed to issue warrants for collection of delinquent street assessments.

A Committee of three consisting of Councilmen Hopkins, Bills and Breck were appointed to investigate the cause of the noise on the floor above the Council Chamber, and endeavor to have the same abated, as it had become a nuisance.

The Council adjourned.

INQUEST.—We learn that the Coroner of Clackamas county held an inquest on the body of a man ... mentioned by us a few days ago as having been found floating in the river near Milwaukie, but no evidence as to the identity could be obtained. The facts elicited show pretty conclusively that the supposition at first entertained as to it being the body of the man who was lost overboard from the steamer *Alert* about the first of last month was unfounded. The body was so decomposed that identification was impossible. The flesh, from the knees down, and the arms from the elbows, were gone, as was also the head. The trunk alone remained, around which was a ... belt, about two inches broad. This belt is perhaps the only thing by which the body can possibly be identified. The flesh remaining on the trunk had become so indurated that it could not be indented the least by pressing upon it. The body had evidently lain in the water for many months.

THE WHARF.—Business on the wharf, at the north end of the city yesterday, was more lively than for weeks past. The *Ajax* and *Almy* were both receiving cargoes in the forenoon, and after noon the former commenced stowing away some of the vast quantities of freight awaiting transportation. The two boats from Oregon City came down with full loads of produce, much of which is for immediate shipment on the ocean going vessels. It is estimated that over a thousand tons of freight are now ready for shipment to San Francisco. Added to this daily are the large quantities constantly arriving from up the valley. The preponderance of the produce is wheat and flour, the demand in the San Francisco market being steady to load the ships now in that port under charter and disengaged, which are said to be numerous.

THE ALMY.—The bark *H W. Almy*, Capt. ..., from San Francisco, arrived at this city at an early hour yesterday morning in tow of the ... tug *Astoria*. Her manifest is as follows: Hodge, Calef & Co., 205 packages, Smith & Davis, ...; Millard & Van Schuyver, 32, H Failing, 103, ... Salem, 172, S & W, Salem, 4, R G Sneath, ...; Jackson, Sanderson & Co., 200, Paul Rich..., ...; E Lowenstein, 10, J K Gill, Salem, 5, ... & Co, 122; C L Parker, 97, M Seller, ...; E J Northrup & Co, 17, Allen & Lewis, 115; Corbitt & Macleay, 325, J F J & Co, 13, E Mil..., ...; A B Richardson, 57, H & Co, 54, ... & Co, 206, S L Fallow, 2, W H McF, 46, ...; Hurgren & Shindler, 3 Comstock & Co, ...; Martin, 96; H & W, 80, G L S 454, Oregon and California Stage Co, 1 buggy.

RESULT OF THE DEBATE.—For eight successive evenings the debate in this city between ... Todd and Arnoup has been conducted before their audiences. In the aggregate, thirty two ... of thirty minutes time each have been used. That is two days under the "eight hour system." The audiences have varied in numbers from forty to one hundred and fifty, averaging ... eighty each evening. This is one hundred and sixty hours, twenty days under the eight hour system for each evening or one hundred and sixty-two days for the audiences and the speakers. No one seems to be found who is authorized to say which of the theories, Spiritualism or anti-Spiritualism, is established.

ODD FELLOWS THEATER.—As usual, the performance last night was highly pleasing to the large ... in attendance. There is no doubt that the present talented company will be well supported by the people and while the character of the acting comes up to the standard of what has already been put on the stage, this support will certainly be deserved. Inability to remain during the entire evening prevented us from noticing the particulars of the several parts of the programme, but the audience surely enjoyed the evening very much. Ireland and America, and the Anti-Coolie Question to night. Let everybody go.

PUBLIC CEREMONIES.—The dedication of the new hall of Nonpareil Lodge of the Independent Order of Good Templars will take place this evening at ... o'clock. The installation of officers will also take place at the same time. Both the ceremonies will be public, and we are requested to state that all friends of the order are invited to ... The hall is in the new building at the corner of First and Madison streets.

SCHOOL EXHIBITION.—There will be a grand School Exhibition given at the Columbia Academy near Centreville, Washington county, on Thursday evening, the 17th of February. The entertainment will consist of a choice selection of declamations, burlesques colloquies, etc, with music at intervals. Exercises to commence at half past six o'clock. Mr Hoopengarner teacher will be glad to see all the friends of the school on the occasion.

FINE PROPERTY FOR SALE.—By reference to our advertising columns it, will be seen that Mr Q A Brooks is offering for sale some of the most eligible and desirable property in the city of Portland. Any one wishing to purchase a homestead in a favorite locality and beautifully situated can not fail to be suited with that which Mr Brooks is now offering at a bargain.

OREGON PRODUCE.—The receipts of Oregon produce at San Francisco from the beginning of 1870, to the 28th of January were as follows: Flour qr sks 54 449. Wheat sks 5 925. Oats sks 281. Salmon, bbls 10, hf bbls 17. Bacon, pkgs 420. Beef, bbls 17. Butter, pkgs 197. Hams, pkgs 67, Lard pkgs 482. Pork, bbls 100, Dried Apples pkgs 27.

THE PROPORTION.—The records of the Police Courts of San Francisco, show that the total number of arrests made in that city during the month of January was 1,448. This is in the ratio of about one to 110 of the population. In Portland the ratio was about one to 250. A very favorable showing for the good behavior of our people.

TO BE REPEATED.—The favorable manner in which the sermon to young men by Bishop Morris was received by the public who heard him, the Rector of Trinity Church has prevailed upon the Bishop to repeat it on next Sunday evening. The young men of Portland are cordially invited to attend.

RECORDER'S COURT.—The man Winters, arrested for assaulting Bridget Brinie Gallagher, was tried in the Recorder's Court yesterday morning and sent to jail for two days.

A Chinaman, who let a "buck saw" stick to his fingers, was sent up for thirty days.

STOCKHOLDERS' MEETING.—The stockholders of the Portland Homestead Association held a meeting at the Armory of the Emmet Guard last evening, at which a number of shares were sold for delinquent assessments.

EXAMINATION.—The examination of the students at the Portland Academy and Female Seminary will commence at 1 o'clock this afternoon and continue over to morrow. The public is invited to be present.

ELECTIONS.—The annual elections in the several fire companies of this city will take place this evening. A prompt attendance of the members of each company is expected.

IMPROVING.—R. J. Ladd is getting better and is pronounced out of immediate danger.

WILL SAIL.—The steamer *Ajax* will sail hence for San Francisco on Saturday at 4 P. M.

LAID UP.—The *George S. Wright* is laid up at the wharf of McCraken, Merrill & Co.

AT SAN FRANCISCO.—The *Montana* arrived at San Francisco yesterday.

## MISCELLANEOUS ITEMS.

In Boston just now it is the fashion to have "Dickens parties." In Minnesota hasty-pudding festivals are the correct thing.

Out in Michigan they call an enterprising settler a "railroad yes" man, as he is pretty certain to vote in favor of new railroads.

Somebody has discovered that a hen-pecked husband is a shrewed man, but cannot be a shrewd man. He has more e's, but not so much ease.

Nearly all the radical Democratic papers in Georgia are urging the people to give General Terry a fair trial before condemning him, assuring them that he is an honest and conscientious officer. They are wise.

At a meeting on Wednesday night the colored Republicans of Baltimore advocated the union of the colored Republicans throughout the State, and advised that measures be at once taken for the erection of school houses and the thorough education of the colored people.

The official returns give the following Republican majorities for Congress in Mississippi: First District, George E. Harris, 3,840; Second District, J. L. Morphis, 4,231; Third District, Henry W Barry, 6,914; Fourth District, George C. McKee, 15,239; Fifth District, Legrand W. Perce, 8,015.

The Washington *Republican* thinks that some national pride ought to be manifested in the matter of building up the national capital, and that it ought to be made "the national centre of art, intelligence and literature, the grand stage for noble emulation in law, philosophy, science, poetry and wealth."

The Richmond *Enquirer* says it is both remarkable and unfortunate that the machinery of the Democratic minority in Congress never works well when the face of the South hangs upon a thread, that the South is cheered at such momentous crisis by admirable denunciatory speeches, but there is always some sad blunder when the voting begins.

Some opposition to the appointment of Judge Strong, of Pennsylvania, to be Associate Justice of the United States Supreme Court, crops out. It is alleged that he presided at a meeting in Philadelphia, at which it was resolved that the name of Jesus Christ be incorporated in the Constitution of the United States, as a source of power and Divine authority.

Judge Linton Stephens has written a letter on the situation in Georgia, in which he objects to the whole scheme of reconstruction, has much to say bitterly of negroes, scalawags and carpet baggers, and indulges in a superfluity of italics! He closes with the remark that perhaps he "really had done just as well not to begin," in which few will be inclined to disagree with him.

The Laramie *Sentinel* has this item: "The hunting sport in this region beats Gordon Cummings' stories about Central Africa. Two boys went out with only six traps, and in ten days they caught seventy beaver, twelve martin, five fishers and several foxes. Another friend of ours, Al Houston, killed twenty three large elk in five hours, a short time ago, within a few miles of this city. The whole country is covered with antelope like a sheep pasture, and herds of elk often numbering several hundred, are met with every day."

A MERITED COMPLIMENT.—We find the following in the Jacksonville *Sentinel* and can heartily endorse all it says of Mr. Davidson:

Mr William Davidson of Portland, has through his industry integrity, business tact and liberal advertising, secured so much business that he has been compelled to engage W F Brown to assist him in making his collections and attending to his real estate business. To those of our readers who may have occasion to employ the services of a collector or real estate agent at Portland, Oregon we can safely recommend Mr Davidson as reliable, punctual and obliging. fe3d1t

REMOVAL.—J. W Campbell has removed his new Patent Bed Bottom manufactory to Messrs Jensen & Rethlefsen's Cabinet and Carpenter shop southeast corner of Morrison and Fourth streets. Although but recently introduced the Minnes... Bed Bottom is fast coming into general use and is giving general satisfaction. Come and see it. j23d1m

There is nothing more pleasing to Son and Parent than a neat fitting and good suit of clothing. The place such are to be found is at Kohn & Fishel's No 101 Front street. Their suits are all custom made. Their stock of clothing is the largest in the city and will be sold lower than ever the next two months to make room for their extensive Spring stock soon to arrive.

The Great Medical Mistake

Of former days was an utter neglect of sanitary precautions. No efficient means were adopted for the prevention of sickness. Sewerage was unknown in the cities ... age was rarely attempted in the country. Heaps of offal were left to rot in the public streets and domestic cleanliness, the great antidote to febrile diseases was sadly neglected. It is not so now. Wise laws, philanthropic institutions and a vigilant sanitary police have to a great extent remedied the evil. Nor is this all. PREVENTIVE MEDICATION has helped materially to lessen the rates of mortality. It is not too much to say that TENS OF THOUSANDS escape sickness in unhealthy seasons in consequence of having INVIGORATED THEIR SYSTEMS IN ADVANCE by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful vegetable tonic and alterative comprises the extracts and essences of a variety of roots and herbs renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles more or less, all the liquors of commerce and their effect is diffused through the whole frame by this active yet harmless stimulant. The result is such a condition of the system as renders it *all but impervious* to the exciting causes of disease, such as damp, fog, sudden alternations of temperature, &c. Strength and the perfect regularity of all the functions of the body are the best safeguards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and billiousness they are a SPECIFIC ABSOLUTE.

What the Hon W T Ballou says about the King of Pain.

SAN FRANCISCO Dec 7 1869

Dr J J McBride—Having suffered with sciatic rheumatism some months I was induced to use your King of Pain. I take pleasure in recommending it to those afflicted with rheumatism. I know of several cases of neuralgia that have been cured by using it.

W T BALLOU of Elko Nevada

Card from Harbor Master

SAN FRANCISCO, Dec 2, 1869

To Dr. McBride—This is to certify that I have been troubled with neuralgia in my right arm and hand for the past three months, and although I have had medical advice and tried a number of remedies none has relieved me until I tried Dr McBride's "King of Pain" which has done me more good than all the other remedies I have tried.

DR. J. J. M'BRIDE,

TELLS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS!

A CARD.

SAN FRANCISCO, Oct 16 1869.

DR McBRIDE—My Dear Sir: For the last six or seven years I have been afflicted with rheumatic pains, from my knees down, embracing all the joints of ankle and toes. These pains have come upon me periodically every year, about this season of the year. My knees and ankles, and toe joints and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady. These pains would continue for a period of from three to four months every year, and they have been regular, unfailing annual visitors. I have been accustomed to apply for relief to the best citizens of San Francisco and have not failed to use all the popular remedies known to the public. I would sometimes receive temporary relief, after long continued application, but it would never fail to return in a few days with increased severity.

About two weeks ago while my pains were upon me I saw you at the corner of one of our streets, and heard what you said about your "King of Pain." I confess that I listened to you with deep distrust. Indeed, I may say that I did not believe your statements. Still I thought "it's only a dollar and I'll patronize the humbug one dollar's worth." I bought a bottle and tried it first on my knee, which was fearfully swollen and from which I suffered very severely. The second night I tried it again, and my dear Doctor you can judge of my surprise, ecstacy and delight, altogether when I found on rising the second morning that my pains were entirely gone and the swelling entirely disappeared. My knee joints were as supple as when I was young. I actually danced with delight, much to the astonishment of my friends, who had been in the habit of regarding me as a decrepid old rheumatic. It has now been two weeks and I have not felt the least symptom of return. I believe I am cured and I feel so grateful to you that I offer you this statement, verified by my oath to be used by you in whatever way you may think proper, and I feel it is a duty to let others similarly afflicted know where they can find relief.

I am, yours, very truly, RAPHAEL LOOKAYBE

State of California, city and county of San Francisco. On this 16th day of October 1869 personally appeared before me, a Justice of the Peace in and for the city and county of San Francisco aforesaid, Raphael Lookaybe known to me to be the person who signed the foregoing letter, and who being by me duly sworn deposes and says the contents thereof are true.

T W TALLIAFERRO, Justice of the Peace

TO THE PUBLIC

Grateful for the eminent services of Dr J J McBride I cheerfully make a statement of the following facts. For twelve months I had suffered from prostration of my nervous system resulting in partial paralysis and almost total loss of sight. A score of physicians had abandoned my case as hopelessly incurable. I had even heard my days numbered by doctors and friends. In the agonies of my neuralgic pain I sought the great "King of Pain." Under that benign influence, in one-half hour I had obtained more medical aid than I had known for long weary months. My sight was so much restored that I could read print, although I had needed a guide to find Dr McBride's office an hour before. Before leaving him I had regained the use of my almost palsied limbs and seemingly my strength had returned while all those aches and pains my constant companions were dissipated and gone. It is now ten days since I undertook treatment with Dr McBride and I can say unhesitatingly that I am restored as I could not have expected to have been in so little time. My eyesight is most perfectly regained my whole physical system corrected and in undoubted health.

My residence is in Reading ... business at No 6 Cambridge street in this city where I will willingly vouch in person for the truth of the foregoing to any one interested.

THOS T GREENWOOD

P S. I have done business in this city for twenty years. Thousands of citizens know me.—T T G

### WALKING MATCH BETWEEN TWO YOUNG LADIES

[From the Chicago Republican Jan 19 ]

PRINCETON Ill Jan 18 Last evening two young ladies completed the task of walking 60 miles in twenty consecutive hours for a prize of $100 They began at 2 o'clock in the morning and finished at 8 25 in the evening having gained one hour and thirty seven minutes during the day They are daughters of a well to do farmer named Parker residing near Sheffield Ill Their ages are 15 and 18 respectively They experienced very little inconvenience as a result of their unusual exertion

### A TOURNAMENT OF THE SKATERS OF WISCONSIN FOR THE CHAMPIONSHIP

OSHKOSH Wis Jan 18—The skating tournament for the championship of Wisconsin commenced here last night The entries were Frank Smith of Janesville; Wm Cox of Oshkosh J H Weston, of La Crosse Sam Hay of Oshkosh Fred Gibson, Fond du Lac; Frank Clark Oshkosh Dan Scott Oshkosh and Benj Seery, Milwaukee The crowd in attendance is very large, in spite of the cold weather Half of the movements laid down in the programme of the American skating contest were gone through with, and the remainder will be skated to night Thus far the superiority seems to be between Weston Seery, and Cox, with the chances in favor of Seery. Bets are strong on each, Cox being the favorite. The ice is good, and the skating by each contestant was splendid To night closes the tournament, with the award of the champion belt, worth $125. The referee is Harry E Dickinson, of Chicago, the judges, Tom Lawrence, of Madison, Charley Smith, of Janesville

The mercury was 18 degrees below zero this morning, with a heavy wind

### SCHEMES FOR FUNDING THE DEBT

[From the Boston Advertiser, Jan 18 ]

WASHINGTON, Jan 17—There has been some conference between the Secretary of the Treasury and the financial committees of Congress on the subject of the funding bill, and the Secretary has drawn up a bill in substantial accord with the views expressed in his annual report, which is likely enough to reach Congress during the present week. He still holds that we can negotiate a loan of twelve hundred millions at a less rate of interest than we are now paying for money and thinks it may be done at four and a half per cent if we are not in too great haste about reducing our receipts from taxes and tariffs The chairman of the Committee of Ways and Means has wholly or partially drawn up a bill stipulating a rate of interest even lower than the Secretary advises, but the talk of his associates on the committee renders its acceptance doubtful The chairman of the Finance Committee thinks 4½ per cent. about as low a figure as we may venture Everybody says this whole question is connected with the question, of reducing taxation, and as the great majority of members of Congress believe in lowering taxes, few of those spoken of as financiers believe we can fund at as low a rate as the Secretary thinks we can The general opinion as far as it can be ascertained seems to be that the five-twenties can be funded in a five per cent. loan. It should be kept in mind, however, that there has been no formal debate either in Congress or committee on any branch of the financial question, and that the views of Congress are apt to undergo a material change on this subject by discussion.

### THE LATEST IMPROVEMENT IN RAILROADING—FROM NEW YORK TO SAN FRANCISCO IN SIXTY HOURS

[From the Pottsville (Pa ) Miners Journal ]

We were shown, yesterday, the model of a new railroad and machinery, invented by R. A Wilder, for which he has made application for a patent, by which the trip can be made from New York to San Francisco in sixty hours, including moderate stoppages at the principal points, with much more safety than on the present road. There will be four rails laid down instead of two, for a single track, and will be laid in such a manner that the road can be used in various ways We are not at liberty at present to give the full particulars, but this much we can say, that the passenger and freight cars can be built 17 feet wide—that they can be run at the rate of sixty miles an hour, with double, if not treble, the safety of running over the present road at 40 miles an hour That a [illegible] engine of sixty tons will take 1,000 passengers in a single train, with less wear and tear to the road than is now caused by a 35 ton engine. The expense of building such a road will be about $8,000 a mile more than building one of the present single track roads, which, for 3,000 miles from New York to San Francisco, would involve an extra expense amounting only to $24,000 000 A single passenger, merchandise or baggage car capable of carrying double the number of passengers, and double the quantity of merchandise, will weigh at least five tons less than any two of the cars now in use. The capacity of the road, single track, will be nearly, if not quite three times as great as that of the present single lines There will be no oscillating movement in the cars when running at a high rate of speed, and it is almost impossible for a car to be overturned in case of an accident. On such a road, with passenger cars 17 feet wide, they can be fitted up with staterooms, etc., and with nearly all the comforts that can be obtained in a first class hotel. Should the project also be carried out of extending a railroad from New York to the most remote point in Newfoundland, and establish a line of steamers to cross the ocean in three days from that point, which can be done, as the distance is only 1,200 miles, the distance from Liverpool to New York can be made in six days; and add two and a half more days to San Francisco, the whole route can be traveled in about nine days, a distance of upwards of 6 000 miles Is not this a wonderful age?

### BEECHER AND HIS SLANDERERS

[Washington, Jan. 17, Correspondent Bulletin ]

The Democratic papers last week made a terrific howl over the fact that Henry Ward Beecher's salary had been raised from $12 000 a year to $20 000 They denounced and ridiculed the eminent divine at a very rapid rate, and none of them for a moment suggested that he would refuse the advance But much to their surprise as he began his service yesterday morning he spoke of the proposal of the trustees to give him this little advance of $8,000, he was much obliged to them but could not accept of it. His salary with what he earned outside was quite enough for his wants, and he could not think of taking the money Probably he will be charged now with a desire to make political and personal capital by his refusal, certainly no good motive will be attributed to him, as they have never been willing heretofore to believe that he could do anything good Beecher is a target for all sorts of arrows and thus far he has been a target that has received no injury It is rumored that he intends to make a short journey to Europe this year by way of improving his health, which has become a little broken

### ANOTHER CLERICAL IRREGULARITY

The notoriety which has been given to the elopement of the Reverend Horace Cooke has called up a similar scandal about a New Jersey clergyman He was regularly beset by a widow—he ought to have heeded the advice of the elder Weller, to "beware of widders"—who wrote to him some very affectionate letters and wanted him to elope with her. She protested that she could not enjoy a moment's happiness without him and he finally consented to run away But before doing so her letters fell into the hands of some one else than the clergyman, and the designing widow was interviewed by a committee of ladies, who advised her to carry out her intention of eloping but make a slight change, as a man some ins d es at euchre, go it alone She saw the point and went and as she was wealthy she was able to go to Europe where she is now remaining The clergyman was labored with, and as he was known to be an innocent and well intentioned man the affair was hushed up Not a dozen persons in the congregation knew of the intended runaway affair and it only came to my ears by accident and on the promise that I would not give names or localities The widow is in Paris and it is said that she is a very earnest student of the French language and writes no more letters to the clergyman Rum things is women

### PAYING TO BE SLANDERED

A few days ago a Government official who is the leading owner of a New England newspaper was charged with a fraud of some kind upon the Treasury Department The statement was published in one of the evening papers here and it so happened that the special correspondent of the Yankee sheet in question was a new man in the business and not aware of the ownership of the establishment so he simplified the story—making it a little worse than the published account—and sent it off by telegraph The night editor was very busy and did not read the thing with proper care and the result was that the paper the next morning contained a glowing account of the alleged frauds of its principal owner Wasn't the latter mad and didn't he make a vacuity very speedily in the night editing and reporting despatching departments of his paper I [illegible] her papers he wrote to his correspondent here but to pay a man to do this sort of thing for me in my own paper is a little [illegible]

## Wit and Humor

### [illegible] BY EDWIN FOWLER AT [illegible] HALL

[From the Chicago Republican [illegible]]

Prof Edwin Fowler lectured last evening in Dyrenfurth's [illegible] Hall No 116 Randolph street on the subject of Wit and Humor Prefacing the lecture with a few remarks on the difficulty of treating the subject fitly and properly he proceeded to show how much wit depended both of speaker and audience [illegible] the dullest of reading [illegible] and devoted by editors to facetia in the daily newspapers were suggestive of the Massacre of the Innocents The facts he intended in wit and humor, he endeavored to explain were closely akin to the emotions of a more tragic nature He enunciated Sydney Smith's idea of a man studying wit and the truth it covered viz that wit could be cultivated There were some to whom poetry was a sealed book and others who could not appreciate a joke

After alluding to Charles Lamb's remarks about Scotchmen and wit he showed the necessity of a supply of wit for unless there is something good to feed on the mind will seize upon what is unwholesome This peculiarly observable in the licentious literature of the reign of Charles II and following immediately upon the rigorous *regime* of Puritanism The coarseness of Luther Cromwell and Caesar were attributable to the excess of humor which they possessed, and in which great men never were deficient The speaker alluded to the well known wit of Abraham Lincoln Shakespeare Chaucer Scott and Dickens were, he considered the principal wits of English literature He concluded with giving the definitions of wit The speaker aptly compared the modern towns of America clad in their classical nomenclature to a belle of of the period in her great grandmother's coal scuttle bonnet He discoursed on the various kinds of wit and created a laugh at Sidney Smith's remark at the absence of the giraffe at the Zoological Gardens owing to his being sick "Fancy my dears having a yard and a half of sore throat" His selections were very amusing and well chosen

In distinguishing wit from humor, he said wit consists of rapid motions of the mind, humor is deep and slow Wit is characteristic of woman humor, of the man Wit is more perpetual, humor emotional Wit is more pertaining to the French humor to the German or English

SAD FATE OF THE WYNOCKIE CHILDREN THEIR BODIES FOUND—On New Year's day three children, sons of Mr Joseph Wyhle a respectable laboring man, residing near Pompton, in Passaic county N J, at the base of the Wynockie Mountain left home for the purpose of "going nutting" in the woods on the mountain

It was 4 o'clock when they left home so that their failure to return before nightfall occasioned but little alarm After that however their continued absence rendered the distracted parents almost frantic The fearful rain storm which prevailed during the night and part of next day fearfully intensified the feelings of the bereaved father and mother, inasmuch as their little darlings had not yet been seen nor heard from On Monday a search was made by a number of the country people, but nothing could be discovered of the whereabouts of the missing children, whose ages were respectively 10 7 and 5 years The entire neighborhood at length joined in the search, and it was not till Tuesday last that the mystery was solved

The innocent trio were found lying dead, side by side, on the south side of the mountain, some ten or eleven miles from their home. It was quite thickly covered with timber where their bodies were discovered From the appearance of the latter it is thought that the children existed for several days on the nuts they had gathered previous to being benighted, and having lost their way were overtaken by physical exhaustion and starvation, which resulted in death The bodies were removed to the home of their heart-broken parents, for whom the entire community evinced the deepest sympathy—*N Y Herald, Jan 14*

"I FEEL JUST SO, TOO"—During the delivery of Miss Olive Logan's lecture on "Girls" in Buffalo, the other evening the fair lecturer, in her confidential talk with "pretty girls," said "Shall I tell you how I feel? Well I tell you, I never saw a pretty girl in all my life one upon whose cheeks the roses were blooming—but that I wanted to fold her in my arms and kiss her" A person of the male persuasion, who had not seen more than twenty five summers, forgetful of the dignity of the occasion, gave evidence of a fellow feeling by, in quite a loud voice, saying, "I feel just so, too"

## Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS GRANULATED LIDS FILMS, &c , as has been sufficiently demonstrated during the few months in which it has been brought into public notice The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY It can do the eyes no harm and a trial of it is therefore without injury or expense to the patient if a cure is not effected

It has cured cases of FIVE, SIX NINE, FIFTEEN and even EIGHTEEN YEARS standing in Harrisburg, Linn county Oregon and its vicinity to which the following persons will bear witness

| | |
|---|---|
| E B MOORE | NATHANIEL BELL, |
| A L WALLACE | G R WARD, |
| Mrs MONTGOMERY | JOHN M HOLLOWAY |
| W D PORTER, | ROB'T RAMSEY |

And others in that vicinity

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE NO PAY and NO INJURY plan

## TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES

### Dr Gibbon's Dispensary

623 KEARNY STREET NEAR COMMERCIAL San Francisco [illegible] for the treatment of Private and Seminal Diseases such as Gonorrhoea Gleet [illegible] all the forms of [illegible] Weakness Impotency [illegible] for [illegible] years [illegible] Legs successfully treated

**Horrible Diseases**

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed in the system Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation those [illegible] Let parents guardians [illegible] who are suffering with any of these [illegible] destroying maladies see that they [illegible] isolate Send them immediately to Dr Gibbon a physician who has made private diseases his especial study for years and who is acting [illegible] cases without mercury [illegible] It is important to those who are [illegible] in the welfare [illegible] of the many pretended doctors [illegible] publishing their skill [illegible] curing all diseases [illegible] the names of eminent physicians from Europe [illegible] and make strict inquiry [illegible] fall into the hands of these charlatans

**Seminal Weakness**

Seminal Emissions the consequence of self-abuse This solitary vice [illegible] by the youth of [illegible] to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures [illegible] countenance dark spots under the eyes pain in the head ringing in the ears noise like the rustling of leaves [illegible] about the [illegible] weakness of the limbs confused vision blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances a disposition to shun society loss of memory hectic flushes pimples [illegible] about the face [illegible] consumption night sweats monomania and frequently insanity If relief be not obtained [illegible] either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Fran [illegible] quacks

**MARRIED MEN,**

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief

DOCTOR GIBBON is responsible and will give to his patients a written instrument binding himself to effect a radical and permanent cure or make no charge

**CURED AT HOME.**

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use For Ten Dollars sent in registered letter or through Wells Fargo & Co

**Caution to the Unfortunate**

Beware of the San Francisco quacks and pretenders who with bogus [illegible] certificates dupe the unwary Some of these self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades Some are blacksmiths shoemakers newspaper carriers intelligence office keepers etc Look over the San Francisco Directory and you will not find the Medical Institutes in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are Dr Gibbon [illegible] not deceive people by exhibiting bogus titles certificates, pretended patient's letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

Address DR J F GIBBON 623 Kearny street, corner Commercial (Private Entrance on Commercial) San Francisco Post Office Box 252

REMEMBER TO PUT BOX 952 ON THE LETTERS
